

FW15 FINE-WIRE DRAWING LINES

- Optimum wire cooling and lubrication with submerged drawing tank
- User-friendly design
- Smooth wire path for high surface quality
- Long lifetime and service interval
- Low consumption of oil and drawing lubricant

Technical Specifications	FW15	Units
Material	Cu (Copper)	-
Maximum Production Speed	30	m/s
Number of Wires	1	quantity
Maximum Inlet Diameter	1,8 2,0	mm
Inlet Strength	450	N/mm ²
Finished Diameter	0,15 0,63	mm
Number of Drafts	21	quantity
Wire Elongation Per Draft	21	%
Drive Technology	AC Motors with Electronic Gear	-
Machine Dimensions (includes annealer)	2,80 x 2,30 x 2,50	m
Weight	3500	kg
